Weekly story times, crafts, and library field trips have been added to the included activities for students enrolled in the summer recreation program. There are two special events on July 25, which will be held during Recreation at Grantwood Park. If your child is not enrolled in summer recreation, present a valid library card to enter the park for the performance.

Don't forget your sunscreen, water, and a beach towel! Check the library's social media feeds for weather-related cancellations.
